## DEAR PARENTS:

I will soon be speaking to middle and high school students in your district. I am excited and appreciative of this opportunity to engage with and impact your teens.

After an amazing 36-year career in law enforcement, I retired to follow my passion to EMPOWER TEENS to make safe and healthy choices online and to EDUCATE PARENTS so they can support and guide their teens. As a former Internet Crimes Against Children Investigator my role was to traverse the internet posing as a child. The world I found myself in for over ten years was almost beyond descriptive words. I knew that my investigations were important, and they were making a difference - one predator at a time. My heart however told me I needed, and wanted to, do more. I founded the DIGITAL EMPOWERMENT PROJECT<sup>SM</sup> in 2017 and I am fortunate to have the opportunity to travel the country sharing my perspective and presenting to teens, educators, counselors, youth pastors and parents.

I felt it was important to introduce myself and provide you with an overview of the upcoming Digital Empowerment for Teens presentations that will be taking place in your school district:

- **Understanding a Teen's Digital World.**
- **Real Teens. Real Stories.**
- **Digital Think-Abouts:**
  - **The Power of One.**
  - **Protecting your Privacy.**
  - **App Permissions / Location Services.**
  - **Online Relationships.**
  - **Sexting/Pornography.**
  - **Cyber Respect.**
  - **Trust an Adult. Tell an Adult.**
- **Embracing Opportunity!**
  - **INVEST YOUR TIME.**
  - **INSPIRE OTHERS.**
  - **IMPACT YOUR FUTURE.**
- **Understanding the "Google You".**
- **Shining Online.**
- **Changing the World!**

It is my sincere hope that you, as a parent, take the opportunity to spark a conversation with your teen about what they learned and how you can support and guide them as they navigate their digital world. Your teen needs you. Please contact me with any questions or comments that you may have.
